

The Right Decision Service (RDS)

Bringing evidence for decision-making to the fingertips of practitioners and citizens

A Once for Scotland platform that delivers as websites and mobile apps:

- Guidelines
- Calculators
- Risk scoring tools
- Patient decision aids
- Pathways

Tools for you to build your service's content into web and mobile apps

Prompts and alerts embedded in electronic care systems

What impact does it have?

 1.7 million users in 2023

 180+ web and mobile toolkits

 37 organisations delivering content through RDS

Professionals in a national survey said that RDS:

 improves patient safety - 74%

 improves evidence-based practice - 65%

 saves staff time - 64%

A game changing clinical calculator tool...this is the realisation of the quest for a single portal of information

The new shared decision tool starts our journey under Realistic Medicine

...transformed our use of guidance

The [care at home] app was full of useful hints and tips regarding challenges we face but are maybe not prepared for

How do I find out more?
